U.S. Patent and Trademark Office PTOL-303 (Rev. 04-01) Continuation Sheet (PTOL-303) 009/516,061

Application No.

Continuation of 2. NOTE: The addition of claims 22-40 would take more than nominal further consideration and would involve further consideration of the previous restriction requirement. ..

Continuation of 5. does NOT place the application in condition for allowance because: of the reasons given in the previous action. One of skill in the art would not have been taught how to make the invention of claims 17 and 21 because the specification does not teach which embodiments meet the requirement of "at least 20% of the enzymatic activity of an E. coli or B. Subtilis RNase P holoenzyme". The 112 first paragraph scope rejection is maintained for the reasons of record. The 102 and 103 rejection have possibly been overcome, however it would take further consideration to determine this and because the amendment is not being entered the examiner will not further consider them at this time.
